

## *Trove's Experience Includes*

- **Project Development** in more than 30 countries.
- **Financial analysis & structuring**
- **Multilateral finance** instruments
- **Contractual agreements** - power sales, fuel supply, construction, long term O&M and electrical interconnection.
- **Power Plant** conceptual & detailed engineering design.
- **Multiple fuels:** crude oil, distillates, natural gas, Pet-coke, coal, Naphtha, LNG, LPG, Syngas, Municipal Solid Waste, Bio-mass fuels.
- **Thermal, Hydro, Solar, Wind** and Utility scale battery technologies.
- **High voltage** interconnection – grid studies.
- **Pipeline** and electric transmission line design.
- **Gas to Liquids** process design
- **Natural gas** treatment – dehydration, adsorption and reforming.
- **Permits**, governmental approvals, regulatory compliance.
- **Operation & Maintenance** Training Programs
- **Steam/Methane reforming**, Water gas shift & F-T liquids production
